Dy 1/9/94

This correspondence has arisen on the complaint of the Dy Commr. of Mysore that before removing the

Seringapatam Dispensary from its former building to the School room the Senior Surgeon did not consult the Dy Comr. &c.

The reason for the abandonment of the old building is not stated in this correspondence but from papers in the D.C.W. Secretary's Office which was sent for perused by Lt. J Chalmers it appears that it is a lonely building & the Hospital Apothecary dreaded to live in the quarters provided for him there & that the D.C.W are thinking of building a new Dispensary building. The old building was originally built many years ago for some purpose but used latterly as dispensary for want of any other building.

Dr. Mc Gann

No reply is given as to how the Amildar arranged for the removal of the dispensary to the School Room without obtaining the Dy Comrs. orders.

8-9-94

It does not appear that the Amildar has any control over the building where the reading room is now held. It was lent to the members by the Sub Division officer, and he alone can take it away.

Sir

With reference to your docket No 77, dated the 14th Instant, I have the honor to report that the question of the transfer of the Dispensary at Serungapatam, to the Reading room in the Fort, has not been placed before the Local Fund Board. At the last meeting of the Local Fund Board, the Civil Surgeon proposed that there should be Separate dispensaries, one at Ganjam, and the other at Serungapatam, and the proposal was agreed to by all the members present. It was therefore resolved that the amildar Should Consult the municipal Board, as to accomodation Beyond this, nothing has been done in the matter

For information I [redacted] attend an extract of para 9, of the Proceedings of the local Fund Board, dated 12th May 1894

2. The Sites for the new Dispensaries have not yet been selected, and no estimates have yet been prepared for the buildings. Till these preliminaries are settled, and the new buildings are ready, I would recommend that the Dispensary which is situated midway between Ganjam and Serungapatam, should remain where it is.

2. The sum of Rs 3330/ required as Compensation for site seems large but it would in my opinion be better to buy it and Construct the Dispensary and hospital on the best and most Central site and so insure the utmost popularity and usefulness which Centrality and easiness of access to all Classes can confer than locate them in an out of the way place; Even if the site were to be had for nothing, where they would be out of the reach of a large number of the towns people and more especially of women and Children.

3. If Government are not pleased to sanction the Cost of site No 3 (?) because of its magnitude I am inclined to think that it would be better

to

to leave the institution where it is at present and Continue to pay rent than Construct it on the site originally proposed by the Dpty Commissioner which is objectionable because it is too far away from the people and is Close to the dwellings of persons whose Castes and surroundings would prove objectionable to many.

With reference to your letter no 884, of 5th September last, regarding the acquisition of the Site no III, at Nanjangode, for the construction of the Dispensary buildings, I have the honor to State, that the Amildar was directed to acquire the Site for a price not exceeding 2500, the limit fixed by the Civil Surgeon. It is now reported that the municipal Commissioners have after due consideration of the Value of houses in the neighbourhood, fixed Rupees 3330/- as a fair Value of the three houses. The owners however are not willing to accept these offers, but demand the large sum of Rupees 7850/- as detailed in the margin. The price fixed by

the Board may be considered to be reasonable, as it is stated to have been based on the value of the houses in the neighbourhood, and, I request that orders of Government may kindly be obtained for proceedings under the Land acquisition Regulation of 1894.

His No. 418 of 27th ultimo, requesting to forward plans of the sites selected by him for constructing a Dispensary at Nanjangud.

---

Referring to the above, has the honor to forward herewith an extract of the town map of Nanjangud after marking on it the 4 sites selected by the Senior Surgeon, and to state that the Amildar of Nanjangud personally

informed the undersigned that Sites numbers
I and II could not be considered as the towns-
people are altogether against the construction
of the Dispensary on either of them. As regards
Number III and IV Sites either of them might
do but No. III is more preferable being more
central. The Compensation, however, as
roughly fixed by the Municipality is
enormous being Rs 3330 for No. III and Rs 2350
for No. IV Site, and it would be one and a
quarter times more to acquire more ground
lengthwise as what the plan shows is not
quite sufficient. The building would
require fully 150 feet of ground in length.
As regards breadth what the plan shows
viz about 100 feet would do.

2. Undersigned would request the favor
of Settling very early the question of Site
to enable the undersigned to start work,
it being now nearly Six months since the
estimate was Sanctioned.

The Compensation ~~paid~~ claimed for the site and the buildings thereon, i.e Rs 7850, is prohibitive. The Dy Comr is requested to ascertain for what sum the owners are finally willing to part with the property and what amount can be got back by the sale of the building materials after the houses are

acquired. The cost of the Dispensary building is estimated at Rs 4274. It should be stated whether this it includes the cost of the site and if so what amount. Unless the site could be acquired for a net sum of Rs 3000, the Govt are not disposed to sanction the construction of the building. The present rented building should continue to be used or some other suitable building rented

SIR.

In reply to Government Proceedings No: 12779-81 / L.Dis. 256-93 dated 21st February last, I have the honor to state that the owners of the houses proposed to be acquired for the construction of a new dispensary at Nanjangode, were again asked by the Amildar about the price, for which they are finally willing to part with the property. They insist on the payment of the amount

amount already claimed viz
Rs. 7850. The building materials
are estimated to fetch only Rs. 7000. It
will thus be seen that the houses
cannot be acquired for a net sum
of Rupees 3,000. The sum of Rs. 4,274
provided in the estimate is inde-
-pendent of the price of the site.
